

Floor machinery

Pan Mixers South Africa (PMSA) has increased its product offering, after securing national distribution rights to the revolutionary range of HTC floor grinding machinery. This is through its newly-established company, Galileo Trading (Pty) Ltd.

Galileo distributes the internationally-recognised range of Swedish-manufactured HTC floor polishing and grinding machines across Southern Africa, and stocks grinding machines to meet the demands of any floor preparation application, ranging from DIY to large industrial projects. As one of the market leaders in the manufacture and supply of floor grinding equipment, HTC's range of floor grinders covers everything from small domestic areas, to vast open areas measuring thousands of square meters.
